

SCRUM Meeting 6 for Team Alpha Spin N' Stonasite

Prepared by: Joshua Rummell

Meeting Date: 4/18/23 - 1:00 PM

Meeting Attendees

1. Chase Albright
2. Jeremy Bui
3. Nathaniel Fernandes
4. Joshua Rummell

Meeting Agenda Items

- Website Accessibility, Google Maps and Translate compatibility for Spin N' Stone
- User Interface, how to make the website professional and still easy to navigate

Status Update Since Last Meeting

Accomplishments:

- Manager side functionality ready for release, X and Z reports completed as equal to the previously made database
- Excess Report documents exact percentage of all items sold that fall underneath 10%

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Finalize X and Z reports, push completed manager view for customer release	Chase	Yes
Plan and begin implementation of Google Maps on Spin N' Stonasite	Nathaniel	Yes

Before The Next Meeting

Plans:

- Begin customer and server side work on design and user interface, should mirror restaurant quality, as seen in other pizza websites such as Dominos, Papa Johns, etc.
- Google Maps integration complete and accurate, enabling user to see Spin N' Stone at the Memorial Student Center

Task Assignments:

Task Description	Assigned to
Google Maps integration, creation of separate page to contact Spin N' Stone at the Memorial Student Center	Jeremy
Begin Customer side user interface design, allowing customers of all personas to clearly view and select menu options	Joshua

Minutes (Notes) from Previous Meeting

Completion of the manager side functionality, including the Sales, Excess, Restock, and the X and Z reports. The idea is to mirror the database previously collected, allowing for logged in managers to view transaction data in various displays, enabling them to make logical purchases and conclusions about pizza inventory. After the conclusion of manager side functionality was reached, discussion began about the integration of Google Maps, so that customers could view Spin N' Stone.
